

Lego Mania

Dear Parents,

Since you are not able to stay with us each day, we wanted to give you an overview of what we will be doing in Lego Mania.

We will be exploring and building many different kinds of Legos. During Session I, we have two classrooms with different Lego projects that will be shared with all the children throughout the week. During Session II, we will have one classroom but all the same stations.

Here are some of the stations that your child will visit. There will be individual as well as partner and small group activities.

- 1) Transportation Center: cars, race track, and other wheeled vehicles.
- 2) City Center: Police, Fire and Construction
- 3) Underwater Exploration Center: submarines and rescue boats
- 4) Pirates and Castle Center
- 5) Space Center: space ships, hovercrafts, space robots, and Star Wars
- 6) Building Center: skyscrapers, tallest tower, engineer game

In addition, the older students (AM classes) will create projects using simple lego robotics.

On Friday we will create an edible Lego piece to take home and enjoy. The children will also be photographed with their favorite creation and will decorate a frame to remember it forever.

We hope your children enjoy this course as much as we enjoy teaching it.

Thank you,

Kim Dowell and Amy Pinciak
